## Remote Viewing on DVR System Tutorial

**\*\*Please note that remote viewing will work on Windows XP only and not compatible with Windows 98.\*\***

Open up Internet Explorer . The security settings will need to be altered at the first time of operating the remote viewing. Go to TOOLS , then down to Internet Options (left click) , click on security, click on Trusted Sites, click SITES.

Add the Internet IP address:

http://enter ip address: CLICK ADD

# LogiVision Systems Ltd.

2647 Turner Street, Victoria, B.C. V8T 4T8  
Phone: 250.595.8504 Fax: 250.595.8564

http://enter ip address: CLICK ADD

\*\*Make sure that there is no checkmark on Require server verification (https:) for all sites in this zone.\*\*

CLICK OK

Open up Internet Explorer type in this internet address:

http://enter ip address  
or http://businessname.lvsip.com

When installing the remote viewer for the first time there will be active X software to install in Windows. Left click on the INSTALL ACTIVE X control just above the internet address bar and left click on Install ActiveX Control.

Then this menu will appear:

# LogiVision Systems Ltd.

2647 Turner Street, Victoria, B.C. V8T 4T8  
Phone: 250.595.8504 Fax: 250.595.8564

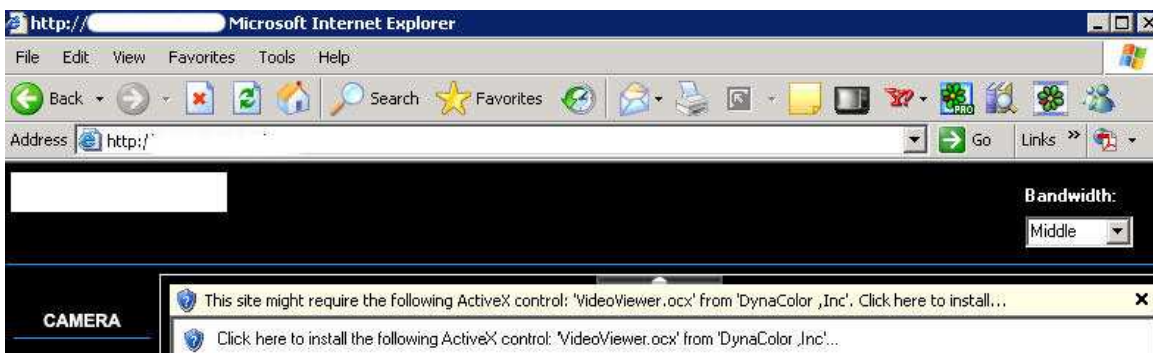

Click on YES

Open up Internet Explorer once again and type in this internet address:

http://enter ip address  
http://enter ip address

Then this screen will appear:

Left Click anywhere on ActiveX Control :”VideoViewer.ocx” and click on Install. The second part of the remote viewer will install. Once the software has been installed, then the webpage will close again.

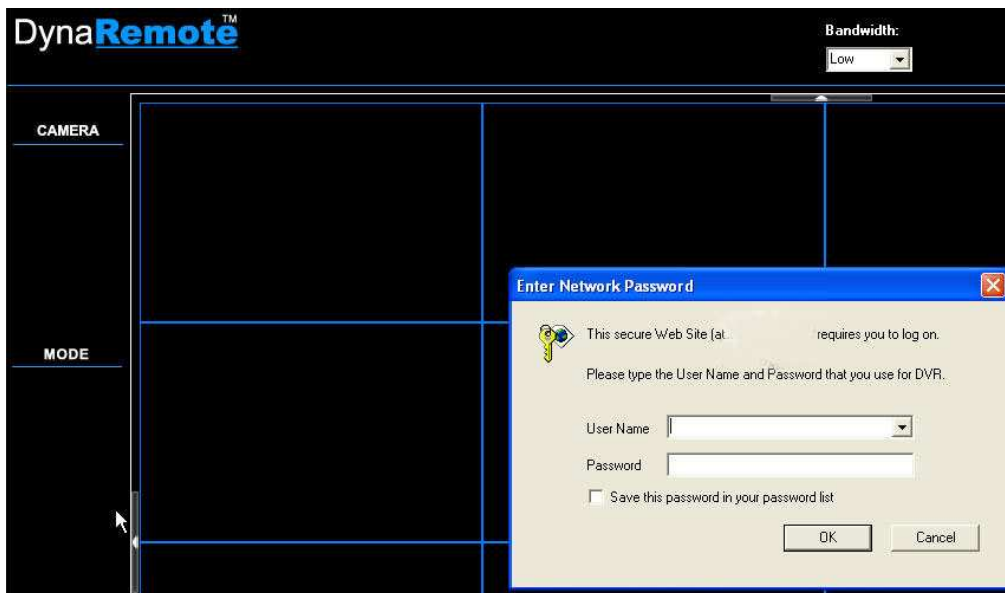

Open up Internet Explorer once again and type in this internet address:

# LogiVision Systems Ltd.

2647 Turner Street, Victoria, B.C. V8T 4T8  
Phone: 250.595.8504 Fax: 250.595.8564

http://enter ip address  
or http://businessname.lvsip.com

Then this screen will appear:

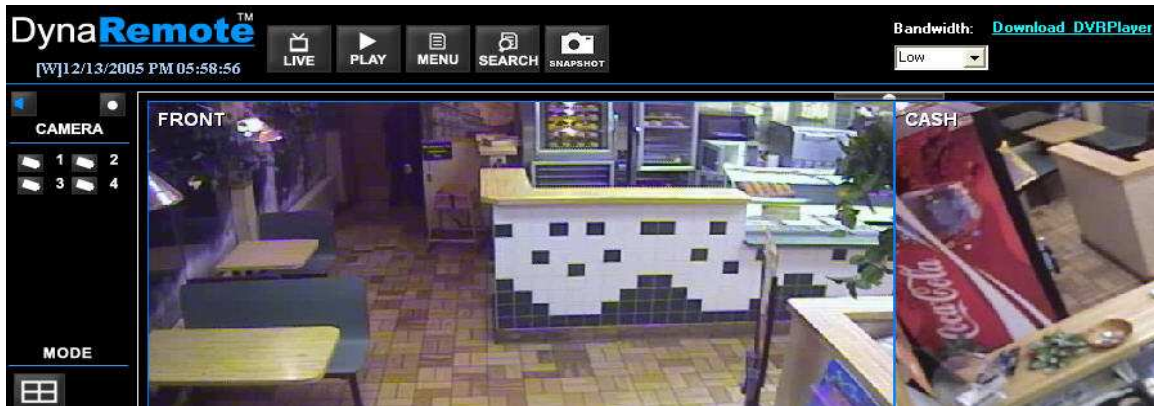

Insert Username: admin

Password: 1234

Then the remote viewer will come on and show all cameras:

# LogiVision Systems Ltd.

2647 Turner Street, Victoria, B.C. V8T 4T8  
Phone: 250.595.8504 Fax: 250.595.8564

## ICONS:

**LIVE** – Live View of Cameras

**PLAY** – Retrieve video footage from selected time and click OK

**MENU** – Alter Setup Settings on DVR, no need to change anything.

**SEARCH** - disabled because DVR setup for 24 hour recording , use PLAY icon instead

**SNAPSHOT** – Inserts Camera Snapshots files on computer desktop automatically.

**BANDWIDTH** - This is internet traffic through your local cable internet provider . Keep the bandwidth either middle or low for quicker real time viewing.

4 Quad Viewing. Left double click on any camera image and the individual camera will be displayed.

- Upper White arrow located just below the Bandwidth icon which allows to stretch the image up to see more area. Same as the white arrow located on the left side next to the third camera.
